

CHATTANOOGA

Smart Community Collaborative

Mission / Cultivate an ecosystem of academia, industry and community to develop and apply innovative solutions to authentic challenges in Chattanooga while leveraging our community assets in order to thrive in the new economy.

FOCUS AREAS

Health

Foster development of cutting edge medical technologies that improve outcomes or extend life.

Transportation

Improve traffic flow while achieving safety and minimizing environmental impact.

Energy

Leverage technology and modeling analysis to achieve improvements in the following outcomes: resilience, reliability, security, affordability, flexibility and sustainability.
