

Instructor Tutorial: Creating a Course Home Page

Your course home page is the first thing students see when they enter your course. This tutorial will show you how to create your home page. There is also further instruction on how to customize it to fit the needs of your course.

[How to Set Up Your Home Page](#)

Step 1: Create a Page

- Click on the Pages link on the course navigation menu.
- Click the blue +Page button to add a new page.
- Insert a table, image, or whatever you'd like to give the page a well-designed look
- Click the blue Save and Publish at the bottom of the screen.

Step 2: Make the Page a Front Page

- Click on the Pages link on the course navigation menu (you want to be looking at your list of pages)
- Navigate to the page you just created as your home page/front page/entry page
- Click on the three dots, kabob, snowman thing to the right of the file name
- Choose Use as Front Page from the drop-down list (the page must be published for this to work)

Step 3: Choosing the Home Page

- Click the Home link on the course navigation menu
- Click on the link for Choose Home Page on the right side of the screen
- Choose Pages Front Page* from the list
- Click Save
