

# Veterinarian School Timeline Guide

Refer to below guide for students planning on attending a veterinarian (DVM) programs who are math ready and not planning on taking a gap year. This timeline is a guide only, if a student will deviate from this timeline please connect with UTC Pre-Health Advisor

Name	ID	Application Date		
<b>Semester 1</b>	<b>Semester 2</b>	<b>Summer 1</b>		
CHEM 1110 and 1110L	CHEM 1120 and 1120L	MATH 1950**		
BIOL 1110 and 1110L	BIOL 1120 and 1120L			
Psychological, Social, Biological Foundations of Behavior Course 1	Psychological, Social, Biological Foundations of Behavior Course 2			
MATH 1130	MATH 1830/1799 or 1730*			
ENGL 1010	ENGL 1020			
<b>Semester 3</b>	<b>Semester 4</b>		<b>Summer 2</b>	
CHEM 3010 and 3010L	CHEM 3020 and 3020L	VMCAS opens in Jan each year Apply to Vet School by July		
BIOL 1130	BIOL 3250			
<b>Semester 5</b>	<b>Semester 6</b>		<b>Summer 3</b>	
PHYS 1030 and 1030L	PHYS 1040 and 1040L	VMCAS opens in Jan each year Apply to Vet School by July		
BIOL 2060 and BIOL 2060L***	BIOL 2100 and 2100L or 4220 and 4220L***			
<b>Semester 7</b>	<b>Semester 8</b>	<b>Summer 4</b>		
Critical Analysis and Reasoning Skills Course 1	Critical Analysis and Reasoning Skills Course 2	VMCAS opens in Jan each year Apply to Vet School by July		
BIOL 4210 ***	BIOL 4050***			
<p>Many programs do differ, some programs may have additional unique prerequisites that would only need to be taken should a student select that particular program. It is important students verify requirements with their programs of interest and/or the UTC Pre-Health Advisor. Below are a list of possible additional courses that may need to be factored into a timeline based on program of interest:</p>				
BIOL 3060	Physiology (Systemic)	THSP 1090	Animal Nutrition	Advanced Life Science Electives
<p><b>Submit VMCAS or NO LATER THAN JULY 1 OF APPLICATION YEAR</b></p> <p><b>Courses eligible for the Pre-Health minor. Students should consult with Pre-Health Advising on the Pre-Health Minor and which courses they should enroll in for their specific program of interest.</b></p>				
<p>* PHYS 1030/1030L features concepts in trigonometry, students are required to complete a course that covers trig prior to enrolling in physics. Students who do not need MATH 1830 for general education or need calculus for their program of interest should consider MATH 1730. Students that need MATH 1830 will need to add the 1 hour math lab to MATH 1830 MATH 1799. Students who complete MATH 1950 do not need to take additional math prior to physics.</p>				
<p>** For students required to take MATH 1950 for their major only, MATH 1950 is not required or recommended for vet school.</p>				
<p>*** These courses are not required for all vet programs, for programs that do not require them it is ideal the student completes at least a few of them as they often fall in the recommended category.</p>
